

## Merry Christmas and Happy Holidays *From the Hodges Family*

**AARON** still lives in Brooklyn where he has been for 5 and ½ years; that is the longest he has lived anywhere! This past winter and spring he completed an artistic residency at the Ontological-Hysteric Theater, an institution in the NYC experimental theater scene. With a company composed of several of his friends, he helped to write, act in and score four new short plays before assembling them into one long work presented at the end of the program. Following the residency he traveled solo, for the first time, through Eastern Europe for two weeks.

Though acting is his main pursuit of performance, he recently found enjoyable work as a dancer for Dean Moss, a contemporary choreographer. For the next year and a half he will be involved in an on/off rehearsal/developmental process, at times taking him out of town to various universities (Harvard, ASU, FSU), before the company premieres it's new work in NYC, followed by a tour of the US and Asia. We'll keep you posted on show dates.

Aaron's band, Holy Spirits, is currently playing shows around town and recording their first EP, which they hope to self-release sometime in the winter.

**MATT, SHANNON, CARSYN, & CADEN** have moved again, this time to Augusta, GA where he is part of a large store's management team as the Loss Prevention Manager. He does some travelling working special cases and doing some covert work. Carsyn, (5), is now in pre-school and absolutely loves it. Caden (2) keeps everyone smiling as he tries as hard as possible to keep up with Carsyn. What a hoot!

**KEITH & JANIE:** After 38 years of federal service without being assigned to the Washington area, Keith took an assignment back "home" with the Army Trial Defense Service as an advisor and trainer. Lots of travel, lots of training, and lots of great young men and women doing incredible work helping other soldiers. Meanwhile, Janie is bravely guarding the home front in Brunswick for the next year or so, at which time they will evaluate their options (full retirement, go back to FLETC, sell rugs on the Internet, or the dream job of working in the tool section at Lowes').
